

Liberty FreedomRib™ Panel

RIGHT FOR SO MANY REASONS®

The FreedomRib™ panel is a lighter weight wall and roof panel that can be used for exterior and interior applications for agricultural use. The panel can also be used as an interior liner panel and partition panel for self-storage systems. For both large and small projects that need a lighter weight and economical solution, FreedomRib is the perfect option.

Liberty
BUILDING SYSTEMS™

THE FREEDOM OF FLEXIBILITY

FreedomRib™ was developed for multiple uses. Its versatility and flexibility allow it to function in a variety of settings such as interior and exterior wall panel applications, including self-storage partitions. Also, it can be used as a roofing solution for agricultural wood frame structures. Recommended panel lengths are 3'-25'; and panels cover 36" with a 3/4" rib height, increasing opportunities for use. FreedomRib is available in Galvalume® and a Polar White FreedomCote™ finish. Liberty offers a 25-year film integrity warranty on its FreedomCote finish.

AN ECONOMICAL COMPONENT OPTION

FreedomRib is a lighter weight, 29-gauge panel, and a more economical solution for liner and partition needs. With its screw-down, direct-fastening system, it is easy to install in the field.

Features

- Economical
- Direct-Fastening
- 36" Coverage
- Lengths up to 25'
- Multiple Uses

Substructure

- Substrate required in some cases.
- Please consult your Liberty Building Systems customer service representative for recommendations.

Coverage

- Each panel has coverage of 36" with a 3/4" rib height.

All panels formed from light gauge metal may exhibit waviness, also known as "oil canning," commonly occurring in, but not restricted to, flat portions of a panel. This inherent characteristic is not a defect of material and is not cause for rejection.
