RIGHT FOR SO MANY REASONS™

SELF-STORAGE SYSTEMS

THE RIGHT

# Quality

## YOUR SOURCE FOR QUALITY

Liberty Building Systems is your single source for a complete line of attractive, secure, cost-efficient and easy-to-erect self-storage building systems. From basic, single-story facilities to complex, climate controlled multi-story buildings, Liberty Building Systems is the ideal solution for all of your self-storage needs. Our product is designed to meet the highest industry standards. Additional upgrades are available to create a personalized unit that will give you a solid return on your investment.

## YOUR SOURCE FOR DESIGN AND PERFORMANCE

Liberty self-storage systems create a professional image while enhancing functionality and productivity. Bay sizes are custom tailored to suit your needs. Plus, you can mix and match trim and door colors and select from an array of exterior wall finishes. Our systems are pre-engineered to your exact specifications, so they are easy to erect and meet or exceed most building codes.

## YOUR SOURCE FOR SERVICE

Providing personalized and complete customer satisfaction is evident in all aspects of our business. The process begins with our experienced sales and in-house engineering professionals. Working closely with you, they will create the custom-designed self-storage building that suits your specific needs and budget. Our quality service extends to our manufacturing team, which is dedicated to providing quality workmanship delivered on time. You will receive a one-of-a-kind experience regardless of the size of your project.

## BUILDING STYLES

Liberty offers a variety of self-storage design styles:

- Single-Story (up to 4":12" roof pitch)
- Multi-Story (accommodates up to four levels)
- RV and Boat Storage
- Climate-Control

## AMENITIES

We provide value-added building solutions that enhance your return on investment with years of low-maintenance ownership.

THE RIGHT  
**Choice**

## **AISC Certification**

All Liberty locations have passed a rigorous examination by the American Institute of Steel Construction to confirm that they have the personnel, organization, experience, procedures, knowledge, equipment, capability and commitment to produce work of the required quality. AISC Metal Buildings Quality Certification monitors and encourages the use of sound structural engineering principles and other screening procedures.
