ValleyRib II™ Architectural Wall Panel

RIGHT FOR SO MANY REASONS®

ValleyRib II™ is an attractive wall panel that can be used as an exterior wall system, roof parapet or exterior façade for commercial, industrial or retail applications. ValleyRib II creates an aesthetically pleasing appearance and adds life-cycle cost savings to almost any project.

THE AESTHETIC CHOICE

ValleyRib II is an attractive exterior wall panel. Its semi-concealed, self-drilling, color-matched fasteners and 36" panel width make the panel economical and easy to install. ValleyRib II is designed to require fewer fasteners than other rib panels, which lowers installation costs and enhances thermal performance. Available in lengths up to 41'; ValleyRib II panels can provide continuous coverage from foundation to eave. This eliminates the need for endlaps and ensures wall integrity and weathertightness. Additionally, a special base trim at ValleyRib II's foundation creates a weathertight seal. Semi-concealed fasteners located in the bottom of a V-groove provide an attractive, smooth appearance.

LONG-LASTING PAINT FINISHES

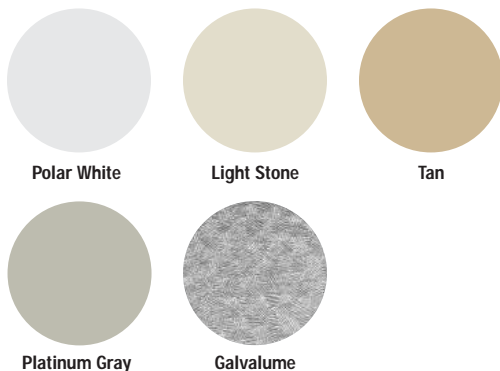

ValleyRib II is available in two paint finishes: FreedomCote™ and Kynar. The FreedomCote finish, a thermoset coating system composed of silicon polyester resin, is backed by a 25-year film integrity warranty. Liberty offers a 30-year warranty on its Kynar finish, a coating system made from fluoropolymer resin. Both finishes are long-lasting for their proven resistance to chalking, fading and chemicals.

- Features**
- Lengths up to 41'-0"
 - 36" coverage
 - Semi-concealed, color-matched fasteners
 - 14 premium colors

- Direct fasten (semi-concealed)

Material

- 26-gauge Galvalume

• Finishes

- FreedomCote and Kynar finishes
- See product sheet for color options.
- Minimum and extended lead times for custom colors may apply.

All panels formed from light gauge metal may exhibit waviness, also known as "oil canning," commonly occurring in, but not restricted to, flat portions of a panel. This inherent characteristic is not a defect of material and is not a cause for rejection.
